PRODUCT HIGHLIGHTS:

- Lightweight and compact package
- Durable and reliable
- Operates from one 9V battery (included)
- User replaceable battery
- Provides an audio and visual cue when a tag is detected
- Battery low indicator
- Simple operation – press and hold button for tag identification
- Detection range is typically between 51 mm to 152 mm (2" to 6")
- RoHS compliant

As shown above, the PV2000 has 3 LED lights (green, yellow and red).

- The green LED lights whenever the button is pressed.
- The yellow LED is the battery low indicator, lighting when the battery is low and the button is depressed.
- The red LED is the tag indicator, blinking when the unit detects a tag.
