

METALPOINT™

Booster bag detection

A favored method of theft for professional thieves is the use of foil-lined items such as clothes or bags, also known as 'booster' or 'foil' bags. Thieves enter a store wearing clothing or with a bag lined with aluminium foil in order to reduce the EAS system's ability to detect a live tag or label.

The sophisticated MetalPoint device detects the presence of such items if carried into the store, and sends a discreet alert to security personnel. The security team can then monitor a suspected thief to prevent theft attempts.

- Detects potential organized retail theft (ORT) operations
- Prevents merchandise theft by alerting staff to potential thieves as they enter a store
- Filters out most other legitimate metal objects such as keys and shopping carts

METALPOINT™

MetalPoint can be seamlessly integrated into Checkpoint's EVOLVE or Liberty PX antennas* or used as a sleek, stand-alone pedestal alongside existing radio frequency (RF) EAS systems. When used in concert with Checkpoint's EVOLVE antennas, a tough barrier against organized retail theft (ORT) is created.

Product Specifications MetalPoint

Integrated MetalPoint Antenna Specifications

	EVOLVE P10	EVOLVE P20	EVOLVE G10	EVOLVE G20	Liberty PX
Width:	19.68 in. (50.0 cm)	12.0 in. (30.5 cm)	19.68 in. (50.0 cm)	11.81 in. (30.0 cm)	19.75 in. (50.2 cm)
Depth:	4.55 in. (11.55 cm)	4.57 in. (11.6 cm)	4.7 in. (11.95 cm)	4.65 in. (11.8 cm)	4.25 in. (10.8 cm)
Height:	67.28 in. (170.9 cm)	67.4 in. (171.16 cm)	65.0 in. (165.1 cm)	65.0 in. (165.1 cm)	68.0 in. (173 cm)
Weight:	26.5 lbs. (12.05 kg)	22 lbs. (10.0 kg)	62 lbs. (28.18 kg)	44 lbs. (20.0 kg)	25 lbs. (11.4 kg)

Stand-alone MetalPoint Antenna Specifications

Width:	5.31 in. (13.5 cm)
Height:	64.96 in. (165.0 cm)
Weight:	15.4 lbs. (7 kg)

Electronic Unit (RF) for all Antenna Configurations

Width:	8.6 in. (22.0 cm)
Depth:	2.9 in. (7.4 cm)
Height:	12 in. (30.5 cm)
Weight:	7.3 lbs. (3.3 kg)

*Integration available worldwide, excluding Germany/Spain/France/UK/Holland
