CLEAR ENHANCED PERFORMANCE LABELS

EP Clear Tamper Tag

Checkpoint's EP labels represent a quantum leap in Radio Frequency (RF) technology, providing retailers and manufacturers with the highest-performing RF labelling solutions on the market, including the world's smallest RF label and NOW the MOST FLEXIBLE LABEL.

Checkpoint has a solution for virtually every need and supports both hand application in-store or source tagging applications at the point of manufacture.

EVOLVE and EP Clear Tamper Tag: The Perfect Combination

When used in concert with Checkpoint's EVOLVE EAS platform, performance of EP Clear Tamper Tags can reduce shrink by up to 50%, and increase sales by 6% or more.

EVOLVE, the best-performing and most intelligent EAS platform available today
